

Cisco APJC Programmability BlackBelt Bot – API Quick Reference Usage

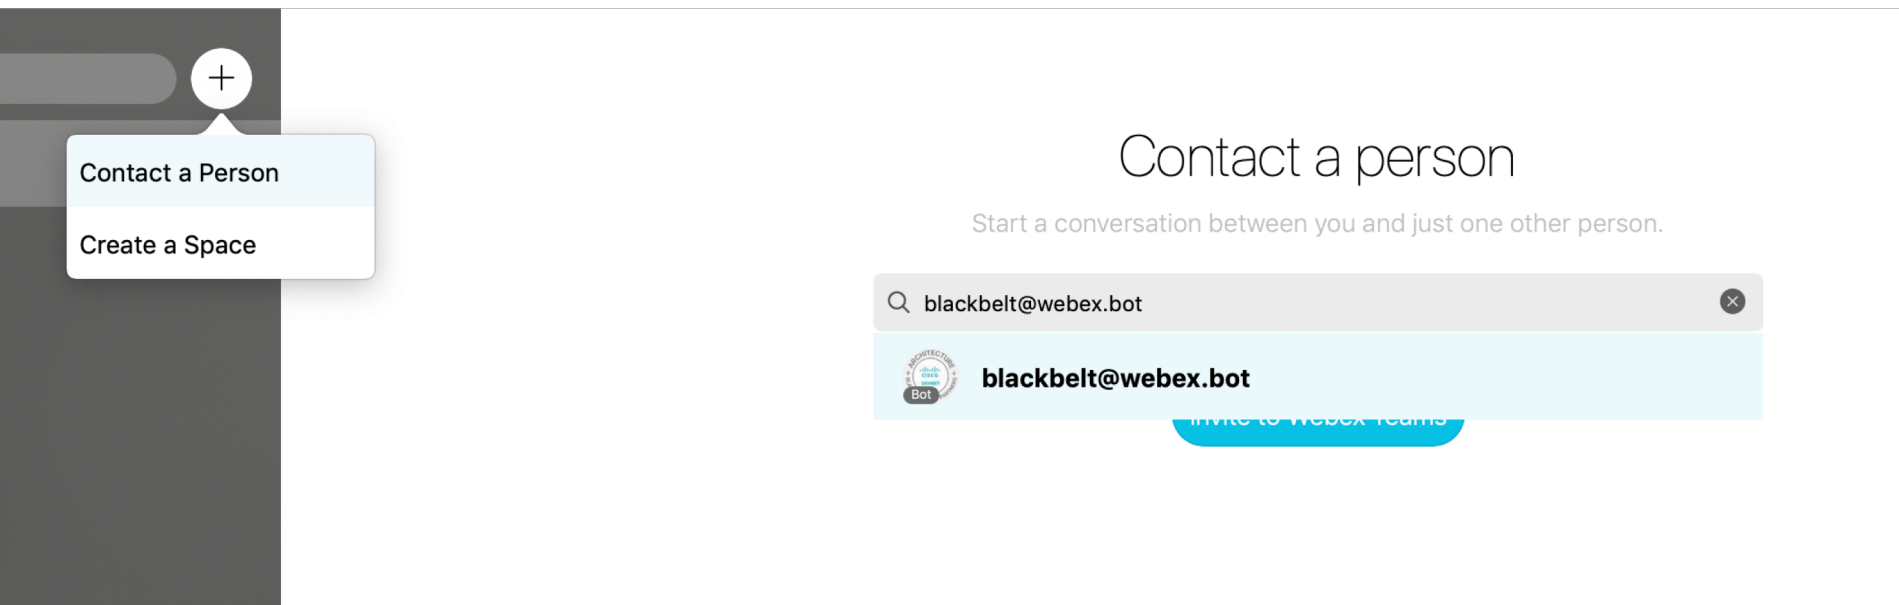

Joel Jose (joeljos@cisco.com)

APJC Programmability Partner Systems Engineer

Date : 03 April 2019

Step 1 – Accessing the APJC BlackBelt bot

- a) Click on the + icon to the left pane of the Webex Teams and select “Contact a Person”
- b) On the right pane – type blackbelt@webex.bot as the person to contact to and press enter

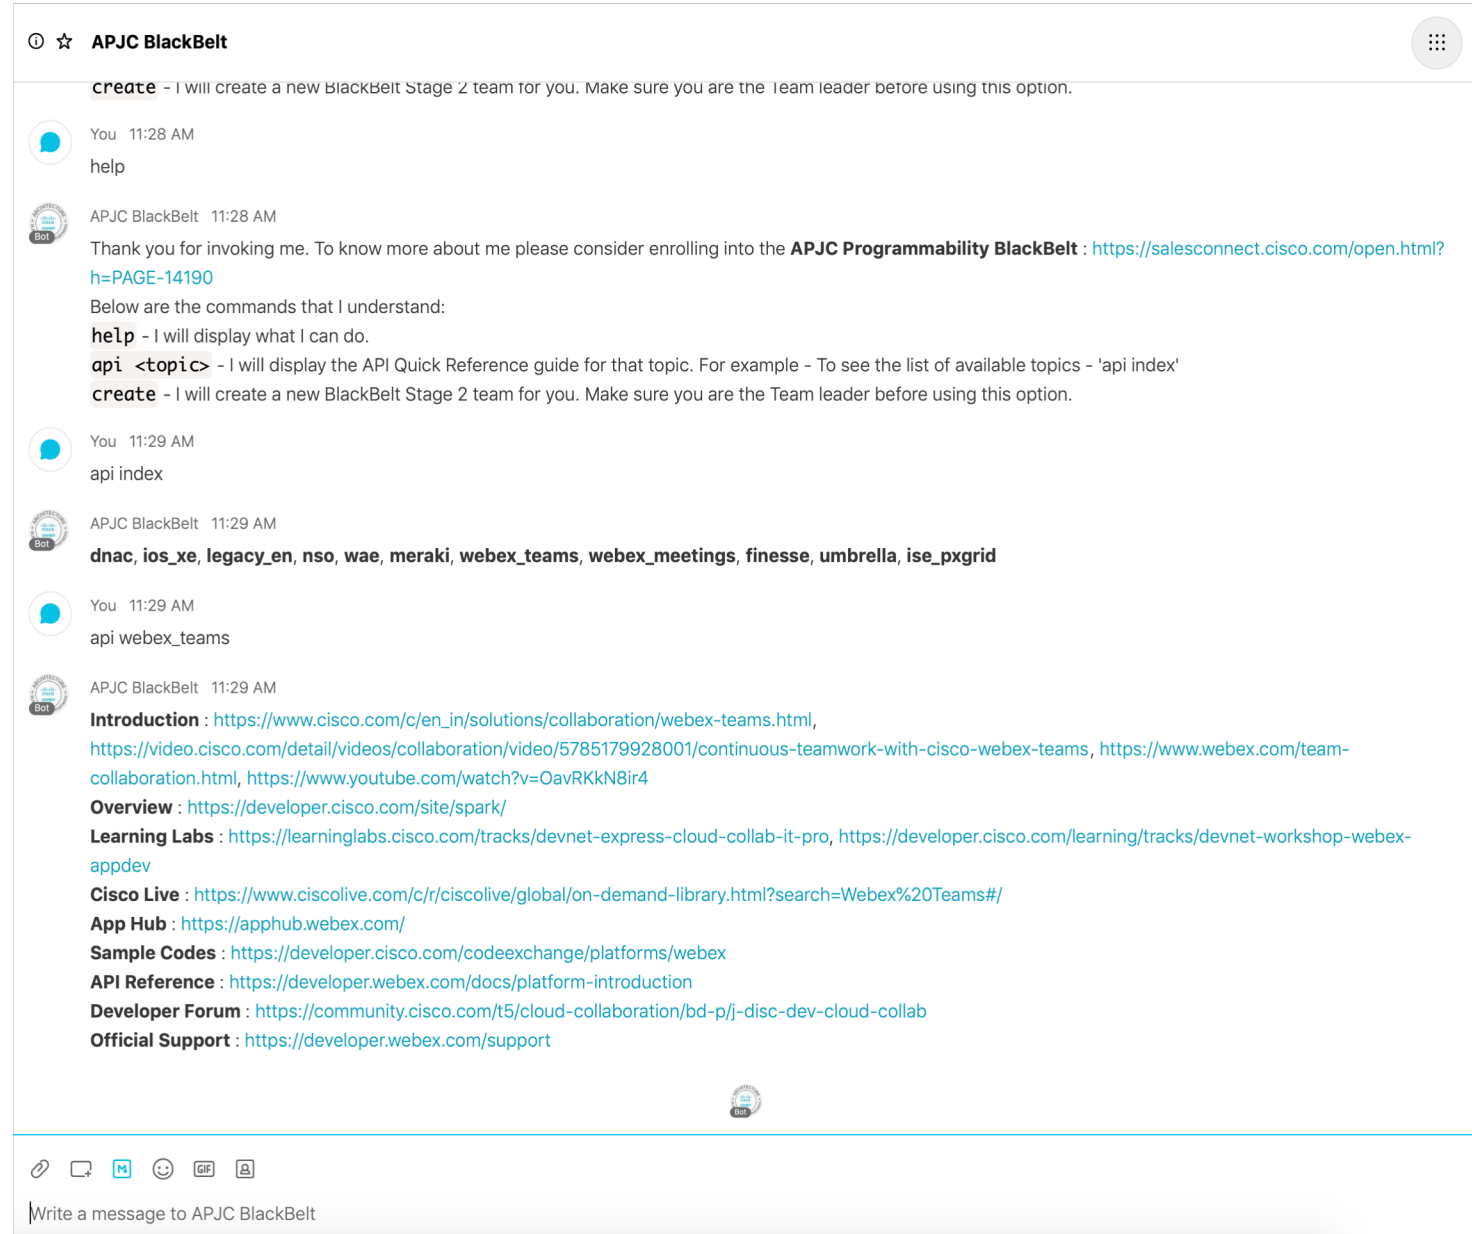

Step 2- Interacting with the APJC BlackBelt bot

a) Inside the BlackBelt bot space, on the right pane – type **“help”** for list of commands that the bot understands

b) Type **“api index”** to see the list of available api quick reference topics

c) As an example, you may type **“api webex_teams”** to view the api quick reference for Webex Teams

APJC BlackBelt

create - I will create a new BlackBelt Stage 2 team for you. Make sure you are the Team leader before using this option.
